MUHAMMED MASUM ISLAM

Tilburg, Netherlands | +31 6 2726 5759 | masum.islam2@gmail.com

LOGISTICS ADMINISTRATION | WAREHOUSE SUPPORT | DATA ASSOCIATE

PROFESSIONAL SUMMARY

Warehouse and logistics professional with 16+ years of experience in order picking, stock handling, inventory checks, packing, shipment documentation, and accurate data administration. Experienced in fast-paced distribution work and in checking goods and records for completeness and discrepancies. Safety-conscious, physically active, comfortable working independently or with a team, and available for morning, afternoon, evening, and night shifts.

RELEVANT SKILLS

- Order picking, packing, replenishment, sorting, staging, and shipment preparation
- Goods receiving, unpacking, labeling, quantity checks, and damage inspection
- Inventory counts, stock accuracy, availability tracking, and discrepancy follow-up
- RF scanner, voice-pick, manual pick lists, pallet jacks, and material handling
- Careful handling, safe stacking, pallet building, and shrink-wrapping
- Clean, orderly work areas; safety, PPE, hygiene, and procedure awareness
- Accurate data entry and logistics documentation using Excel, SharePoint, and database portals
- Cross-team communication, customer service, prioritization, and shift flexibility

PROFESSIONAL EXPERIENCE

Operations Associate and Rider

Flink, Tilburg, Netherlands | **Feb 2026 - Present**

- Organize and replenish stock, monitor product availability, and keep stored products orderly.
- Check products against quality expectations; pick customer orders accurately and pack them carefully for dispatch.
- As a rider, plan routes with Google Maps and deliver orders safely and on time using an e-bike.
- Communicate professionally with customers and provide dependable service during deliveries.

Administrative and Inventory Data Associate

iProsoft.nl, Netherlands (remote and onsite) | **Jan 2022 - Feb 2026**

- Maintained digital inventory, entitlement, and logistics records across internal databases and government platforms.
- Entered and checked data, tracking inputs, and compliance records using Excel, SharePoint, and specialist portals.
- Coordinated with operations, warehouse teams, and administrative stakeholders to investigate and resolve fulfilment discrepancies.

Federal Data Entry and Records Associate

Zenser Consulting for WIPO, Geneva, Switzerland (remote) | **Jan 2017 - Dec 2021**

- Processed high volumes of confidential records, shipment-tracking information, and logistics documentation.
- Checked entries carefully to maintain accurate records across supply-chain and record-keeping portals.

Warehouse Worker and Logistics Assistant

K-Supermarket Logistics and Regional Distribution, Finland | **Jan 2008 - Dec 2016**

- Picked, sorted, staged, and palletized grocery and retail orders to meet scheduled dispatch deadlines.

- Received and dispatched goods, matched quantities to delivery notes, and checked for damage or discrepancies.
- Used RF scanners and manual pick lists to locate stock and complete orders accurately in a high-volume distribution centre.
- Handled heavy goods, built and shrink-wrapped pallets, and kept warehouse and loading areas clean and orderly in line with safety and hygiene rules.
- Worked with inventory controllers, forklift operators, and shift supervisors to resolve workflow bottlenecks.

Warehouse Stock Handler and Order Preparation Associate

Logistics and Food Distribution Hub, Finland | **Jan 2003 - Dec 2008**

- Received, unpacked, labeled, and stored incoming stock in designated warehouse locations.
- Picked and packed outgoing orders, applied shipping labels, and prepared goods for dispatch.
- Completed physical counts and cycle checks to compare stock on hand with system records.
- Used pallet jacks and manual handling equipment safely to move goods around the warehouse.
